ILLY IN BRIEF

467 million euro turnover in 2017

65% of sales outside Italy

140 countries where illy is distributed

+100,000 coffee shops where illy is served

+7,000,000 cups of illy coffee served every day around the world

Source: Internal customer satisfaction data, 2017. 2341 interviews conducted with illy professional clients in Italy, Austria, France, Germany, Holland and Spain (2016 and 2017).

THE ILLY BLEND

100% ARABICA

illy produces a single blend composed of nine distinct highest-order Arabica coffees selected and directly purchased by illy from farms spanning four continents, to ensure day after day, year after year, and in any part of the world a coffee, with a unique taste, body and aroma.

INNOVATIONS

For more than 80 years illy caffè has been studying coffee focusing on the search of perfection through the best technologies such as the pressurization technique patented by Francesco Illy in 1934.

illy offers various ways to prepare the classically espresso to be able to satisfy different taste and preferences.

Proposes a full range of premium RTD (ready to drink) coffee beverages in order to satisfy all different needs of tastes: caffe and caffe no sugar for uplift and mental renewal, milk variants for sensory pleasure, mochaccino or indulgence. All ILLY RTD products are prepared with ILLY unique 100% ARABICA coffee blend, for an intense italian espresso experience. The finest ingredients with no artificial colors, aromas, flavors or preservatives added. A perfect high quality italian style product to awaken your senses and uplift you for the day.

ILLY READY TO DRINK: THE CHILLED COFFEE YOU CAN TAKE ANYWHERE

The unique taste of the illy blend made up of the nine most refined Arabica coffees from the best growers in the world, encapsulated in a chilled coffee ready to drink in two practical formats, can or bottle, so you don't have to miss out on the pleasure of illy coffee at any time and wherever you are. Free from added preservatives, flavorings and colorings, illy Ready to Drink is available in two different flavors: Cappuccino and Latte Macchiato.

CAPPUCCINO – Intense aromas of illy espresso, blended with velvet milk and a touch of dark cacao.

LATTE MACCHIATO – A smooth fresh milk based drink, swirled with pleasurable notes of the unique illy espresso aroma.

Domori was founded in 1997 from the creative mind of Gianluca Franzoni, out of his passion for nature, gastronomy, and cacao. In 1993, after studying economics, he went to Venezuela where the magic of cacao captivated him. He decided to build a framework for repositioning fine cacao on the market. Domori chocolate is an extraordinary experience, a unique sensory "tale" without compromise. Its story is told through first-time records that are true revolutions in the world of cacao.

Domori was the first company in the world to use only fine cacao in production. The first to recover the biodiversity of the aromatic cacao variety Criollo. The first to make chocolate with Criollo cacao. The first to make a 100% cacao chocolate bar. The first to rediscover and use the ancient and simple method of making chocolate with just cacao paste and sugar.

The first to create a Chocolate Tasting Code to discover the infinite nuances of cacao.

Every phase of Domori's production is studied to conserve the aromatic notes naturally present in the beans of the best selected varieties. It is only in doing so that Domori chocolate maintains the natural and original essence of the cacao intact.

Words that are true revolutions in the world of cacao.

Domori was the first company in the world to use only fine cacao in production. The first to recover the biodiversity of the aromatic cacao variety Criollo.

The first to make chocolate with Criollo cacao. The first to make a 100% cacao chocolate bar.

The first to rediscover and use the ancient and simple method of making chocolate with just cacao paste and sugar.

The first to create a Chocolate Tasting Code to discover the infinite nuances of cacao.

Every phase of Domori's production is studied to conserve the aromatic notes naturally present in the beans of the best selected varieties. It is only in doing so that Domori chocolate maintains the natural and original essence of the cacao intact.

Creating chocolate of superior quality is an art that requires passion and dedication, that's why, first among all chocolate manufacturers, Domori employs only fine cocoa plants. A bold choice, because these are the most delicate varieties, the rarest and less productive. Fine cocoa, in fact, represents only 10% of the global harvest and the Criollo, the rarest variety of all, little more than 0,001%. The courage of this choice not only allows the production of a chocolate with a varied aromatic bouquet, but also the respect and conservation of biodiversity. From its origins, the company has been fighting for the protection of valuable varieties of cocoa, of their natural habitat and of the farmers who work in them.

GIFT IDEAS

THE TASTE OF NATURE

Agriland was founded in 1990 in Monaco, under the name of Agrimontana International. The Agrimontana company is one large family, composed with the descendants of the founder, the employees, technical and commercial partners, farmers, suppliers, professionals who use the product and those who consume and enjoy the benefit of an entire production process. Our story is one of a journey which takes us closer to Nature, seen through the taste of pastry chefs, bakers and ice cream makers. Azienda Agrimontana, founded in 1972 in Borgo San Dalmazzo (Cunéo) in Piedmont, Italy, quickly became the market leader for chestnuts, candied fruit and jam in Italy. The main reason for this success is that, from the very beginning, Agrimontana has only worked with natural ingredients, never used colourants, preservatives or artificial flavourings. Moreover, Agrimontana only uses fruit grown in Italy. Our range also includes products for making real Italian gelato: bases and pastes with all-natural ingredients. Since 2006, Azienda Agrimontana has been part of the Illy Group, which includes Illy coffee, Dammann frères tea and Domori chocolate. Being part of such a dynamic and quality-focused group has allowed Agrimontana to complete its professional range with the inclusion of Domori couverture chocolate. Domori only uses Aromatic cacao, from the best Criollo and Triniatario plantations, which are monitored from harvesting to fermentation and storage, with gentle roasting and fast grinding to keep all the flavours in.

THE WATER THAT BREAKS THE STONE

The route to health is a wonderful journey. You can discover this with Fiuggi Mineral Water.

Don't miss out on the unique characteristics of the water that's purity, quality and authenticity has taken care of Italians for generations. Enjoy the cleansing properties of with the water that came from Italy's most famous spring. The story recounts how kings, noblemen, politicians, Popes and ambassadors were benefited by drinking this miraculous water. In 1549, Michelangelo Buonarroti, who suffered of kidney stones, wrote about this wonderful water as "the water that breaks the stone". This expression, used by Michelangelo on purely observational basis, today finds strong scientific support and explanation. Known worldwide for its depurative and benefic properties, Fiuggi belongs to the category of mineral cold waters that flow at a temperature of 12.4 ° C at the source. The secret of Fiuggi water is in its composition. The Fiuggi water basin is situated at the foot of Enrici Mountains, in the valley of Fiuggi that in prehistoric times was a lake. With lacustrine sedimentation and volcanism, the ground has been enriched by a layer of silt, clay, tuff and ashes. Today, the water flowing through the volcanic layer enriches itself with benefic components that detoxify the body and promote well being. Used both in the watering parks and for bottling, it is the ideal solution for those who want excellence and quality in a glass of water.

The world's best ingredients.

Every bottle of MangaJo iced tea is packed with ingredients that love you right back. We have explored the world to find the very best goji, the purest green tea and the reddest rooibos. Our acai juice comes directly from a lovely lady living in the Amazon jungle, and it is suppliers like Fernanda that make our teas taste amazing.

MangaJo drinks are based on antioxidant-packed green or red tea, enhanced with exotic superfruits. There are no added colours or preservatives and no added sugar or sweeteners. Just pure and amazing ingredients in a deliciously refreshing blend.

A modern, trendy, refreshing wellness beverage developed with pure green tea and super fruit juices produced in UK. A rare combination of the super juices does not only taste good, but works on the body itself. It has been defined as ELIXIR drink. The natural product without any preservatives, colours and sugar free makes a real source of anti-oxidant.

The product is basically targeted for mini bars, spas, pool bars and retail chains etc.

Look Good, feel great. Detoxing Iced Tea.

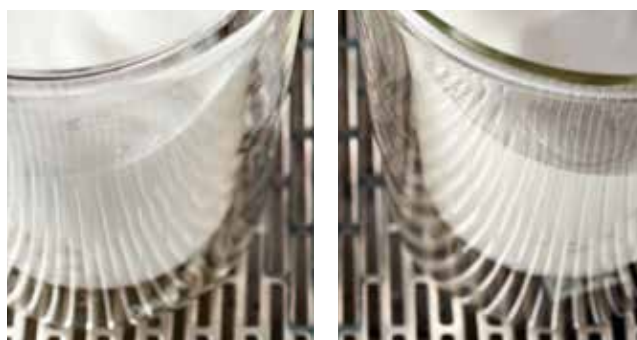

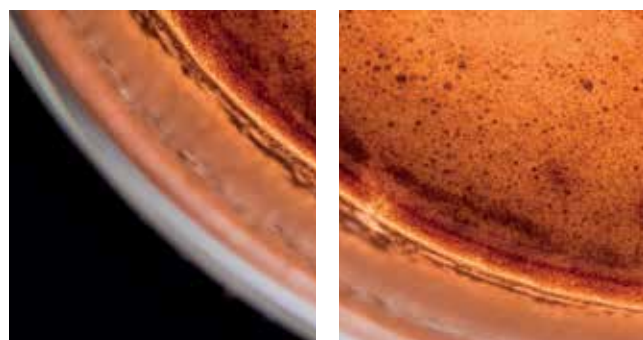

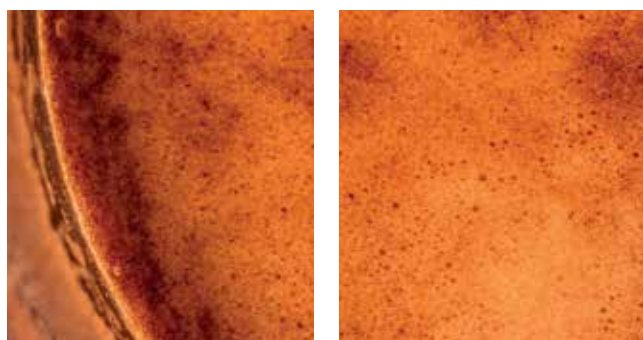

UNIC

ESPRESSO ENGINEERS

With the long-standing expertise in designing and manufacturing espresso machines for roasters, baristas, food service and hospitality operators, UNIC is a major player in the worldwide supply of commercial espresso equipment.

SHOP

illy SHOP Dubai
The ultimate experience for coffee lovers

The native origin of coffee is thought to have been Ethiopia. True or not, the magic plant spread all over the south tropical regions, somewhere up to the Capricorn's tropics and in the immediate subtropical vicinity of it. Varietals are generally known by the region in which they are grown, such as Colombian, Java or Kona. Yet two of them are the most commercially known as cultivars: Arabica coffee beans cultivated mainly in Latin America, eastern Africa, Asia and Robusta grown in central Africa, throughout southeast Asia and Brazil.

Drinking coffee evolved almost to become an art since its discovery and nowadays it is a fundamental part of billions of peoples' life.

Espresso is the first choice of coffee lovers, with a strong aroma, high concentration and "crema" on top.

And only one is the master of espresso: illycaffè, a story which begins in Trieste – Italy, the gateway to coffee culture. Illy is where experience, taste, scientific curiosity, art and culture come together to create a multidimensional and multisensory pleasure in the cup.

illy flavors have been brought also to UAE by Shura Trading, a leading company which belongs to Al Mazroui Group's Horeca business unit.

Started in 2011, illy SHOP is the illycaffè retail project with the aim of involving the consumers and offer them the whole range of illy and illy Group's products. A place where the Company tells its story and where the consumer is entertained and delighted in a world made of excellence, quality, beauty and well done. A modern and cozy place, where the atmosphere enhances the brand experience and highlights the products at their best.

The concept has been designed to glorify each single product and to allow consumers to touch, test and taste it. Display organization and communication have been developed to explain the whole range of products and lead the consumer throughout the purchase process.

Featuring the whole range of illy products (the entire selection of the illy blend and single origins, coffee machines, illy art collections, accessories and much more) and an indulgent selection of the other brands of illy Group (Domori, Dammann Freres, Agrimontana and Mastrojanni), illy SHOP has doors open in UAE to coffee lovers and not only.
